THE KENSINGTON MANIFESTO

Our team is guided by our Manifesto – an expression of our belief in the transformational power of travel.

We are not in the business of booking tours.

We're in the business of discovery.

We're in the business of satisfying an essential human need.

People travel to peel away the husk of habit and uncover their true selves.

To relax into a purer state of being.

To better understand the world and their place in it.

To conquer challenges and discover new wells of confidence.

Deep down, people believe if they travel enough, they will discover a better self.

Our business is not the booking of tours.

We are architects of travel.

Which means we start with the important questions.

Not just 'where' or 'when' but rather 'why.'

Why a journey? Why now? What's going on here that you want to go there?

The 'why' tells us a lot about the 'how.'

Since everybody's 'why' is different, everybody's 'how' must be personalized.

Personalized travel leads to personal discovery.

No, we are not in the business of travel.

We are the architects of possibilities.

The agents of change.

We create the experience that changes the life.
