travel becomes you

Travel has been the single most transformational force in my life. The countries I've visited (over 80), the people I have met and the experiences that have given me new perspectives are all now a part of me.

Enabling transformational travel experiences is what inspired me to start Kensington Tours. The enthusiastic response from so many travelers hungry for richer, more personalized experiences is what continues to spur me – and the whole Kensington team – forward.

With this in mind, I share with you the mission and manifesto that guide the Kensington team as we approach each and every customized tour we craft. On behalf of our destination specialists and our network of deeply knowledgeable local private guides, I invite you to discover the unforgettable moments and transformative experiences only possible when your trip is truly customized.

# OUR MISSION

To create the experience that changes the life.

# OUR MANIFESTO

We are not in the business of booking tours.  
We're in the business of satisfying an essential human need.  
Why do people feel the insistent pull of the world?  
Is it merely to see things they've never seen before?  
To visit places before they're ruined by civilization?  
Or simply because the world is more accessible than any time in human history.  
Yes. All of the above.

But none of these reasons capture why we're in business.  
We're in the business of discovery.  
People travel to peel away the husk of habit and uncover their true selves.  
To relax into a purer state of being.  
To better understand the world and their place in it.  
To conquer challenges and discover new wells of confidence.  
Deep down, people believe if they travel enough, they will discover a better self.

Our business is not the booking of tours.  
We are architects of travel.  
Which means we start with the important questions.  
Not just 'where' or 'when' but rather 'why.'  
Why a journey? Why now? What's going on here that you want to go there?  
The 'why' tells us a lot about the 'how.'  
Since everybody's 'why' is different, everybody's 'how' must be personalized.  
Personalized travel leads to personal discovery.

No, we are not in the business of travel.  
We are the architects of possibilities.  
The agents of change.  
We create the experience that changes the life.

# DISCOVER TAILOR-MADE TRAVEL. DISCOVER YOURSELF.

Most tours are a series of compromises. Trying to please everyone, they please no one. But not at Kensington Tours. A custom tour from Kensington is your own private tour, carefully crafted by our destination specialists to deliver a personalized adventure like no other. We build in enriching and unforgettable experiences, and put the best private guides at your service. We do all this with award-winning attention to detail and at unbeatable value for your travel dollar.

## DISCOVER THE FLEXIBILITY AND FREEDOM ONLY POSSIBLE WITH A CUSTOM TOUR

Linger longer to watch the lion cubs play, explore an out of the way artisan studio in Rome (instead of yet another Duomo), choose value wise hotels for the first half of your trip so you can indulge yourself on the homestretch – this is the freedom and flexibility only possible on a custom tour. And these are the experiences that transform both the trip and the traveler.

Whether you are traveling as a couple, with your family or a group of friends, Kensington's experienced staff will custom tailor an itinerary to match your travel style, your passions, your pace and your pocketbook. The result is an experience that is more personal, more rewarding and frankly more fun.

Kensington Tours launched **Kensington Cares** to give back to the communities that share their beauty and culture with our guests. With a focus on education initiatives in East Africa, Kensington Cares has been active for as long as Kensington Tours has existed. It is in our DNA – and is the inspiration of Kensington's founder who himself grew up in East Africa in a family dedicated to giving back.

Our newest project is our boldest and most exciting by far. Together with community-based partners in Kenya's Maasai Mara, Kensington Cares is spearheading a new model for education in the region that combines traditional academics with a focus on employment and career skills. Located in the Trans Mara District, this school will not only be the first high school in the district but will also include facilities to provide important job and income generating skills for success in the local economy and beyond. A multi-year project, the school will be built in phases with ground-breaking scheduled for early 2015.

## PRIVATE GUIDED *Moments*

I would highly recommend a private tour rather than a group tour, you won't be sorry. We learned so much more than on a group tour or walking through places on our own.

We just returned from our Patagonia adventure & wanted to tell you we had the time of our lives! I am so happy we took a little risk & went out of the way with our vacation this year. We will have this with us for a lifetime.

From our greeter, who whisked us through customs in Johannesburg, to all our excellent drivers & guides, everyone was highly professional, well dressed, well mannered, & well informed. Our tour worked like a superbly designed, technically perfect Swiss watch. Bravo!
